

The industrial solution for manufacturers in the chemical industry

*easy*chem

easyChem joins a variety of modules for use in the chemical industry, developed in close collaboration with our customers.

The GMP-compliant way of working is supported. Official requirements are covered (IFRA, REACH, etc.). It is also possible to print safety data sheets or end product labels.

Experience is our competence **[casymir.com](https://www.casymir.com)**

CASYMIR

With our long industry experience, we have developed CASYCHEM, an ERP software that is tailored to the requirements of companies in the Chemical industry. CASYCHEM offers a transparent representation of the entire process chain in all operational areas and is consequently batch-oriented. Certifications according to GxP, GAMP V, IFRA, REACH, FDA and other national regulations are possible and have been already implemented by our customers.

GHS module integrated

*casymir*chem

HIGHLIGHTS

- Validatable system
- Stability database for the validation of product stability
- Calculation of product properties such as the degree of compliance
- Active substance and substance database
- Possibilities for dangerous goods and dangerous goods classification
- Printing of safety data sheets or end product labels (GHS compliant)
- Hazardous substance classification (GHS) and support for dangerous goods (UN)
- Safety data sheet, certificate of conformity

RELEVANT FUNCTIONS

- Validatable system
- Traceability of all data and processes
- Recipe management
- Flexible creation and management of certificates
- Ingredients, properties, areas of application of articles
- Acquisition and management of measurement data
- Easy management and documentation of free goods
- Flexible control of production facilities
- Ingredient management
- Support for order and stock production
- Calculation of product properties
- Integrated LIMS functions
- Stability database for product stability monitoring
- Secure product related warehouse management
- Maintenance of production facilities
- Multilevel production and release procedures
- Deposit of specifications
- Continuous traceability in all relevant areas
- Consistent workflow management
- Country- and customer-specific labeling with barcode GS1-128 (EAN)
- Batch traceability and quality management
- Customs Interface for Import and Export (CH)
- Complaints management
- Depiction of by-products
- Integrated weighing system
- Revision and release security
- Integration of document management systems
- Consignment stock and foreign production
- Audit Trail
